

**Client Relationship Manager, Performance**

**Location: UK-London**

**Remuneration: £ Excellent Package**

**Reference Number: CL1298**

Leading provider of asset and securities services seeks experienced Client Manager with a solid understanding of investment performance management gained from a custodian or investment management background to manage and develop an existing client base.

Superior client relationship management skills and the proven ability to make effective presentations to different sized audiences at a Director/senior management level are prerequisite.

Client skills should be complemented by a good technical understanding of performance measurement and a basic understanding of the Custody business.

This is an excellent opportunity to join an established and highly professional team and the successful candidate, in addition to demonstrating the client and technical experience as outlined above, will be a good team player with a "can do" and positive attitude, a strong client ethos and a determination to exceed client expectations and drive incremental revenue.

In addition to English, fluency in any other European language would be helpful but not essential.
